

ALL NEW METRIC PREMIUM COPING

An Evolution of Form and Function!

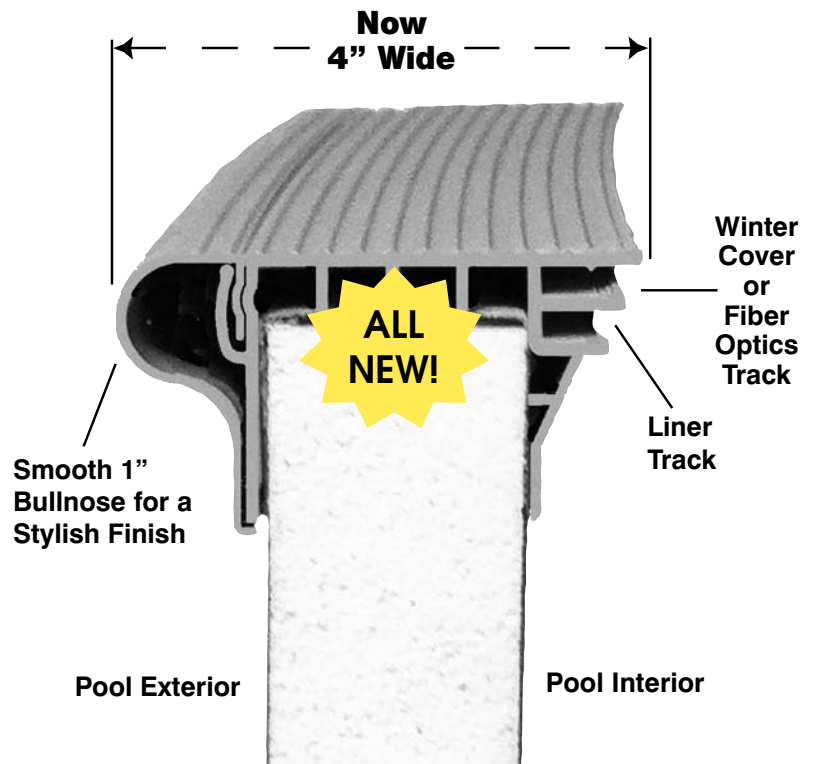

We've re-engineered the coping for the Radiant Metric Pool! The new design boasts a wide 4" profile, elegant bullnose exterior finish and double tracks inside the pool that accommodates liner, custom winter cover or even fiber optic lighting!

The internal track for the Radiant Custom Winter Cover provides an easier and more secure installation that keeps wind out and no longer requires the removal of fence or ladder clips. Available in both white and gray, the color is integrated throughout the material, assuring no paint chipping or unequal fading. The New Metric Premium Coping is designed to look great and last a lifetime!

Innovation and engineering is the Radiant Pools tradition.

IT'S INCREDIBLE!

- Innovative Design
- Contemporary Style
- Versatile Interior Double Track
- Added Structural Strength
- Chemical & UV Resistant
- Available in White & Gray
- Fits All Accessory Options
